Abstract

In 2015, world leaders adopted the Sustainable Development Goals as part of the 2030 Agenda for sustainable development. Officially, into force January 1., 2016. 17 overall goals, 169 targets and at present 232 indicators. A huge and very challenging agenda, that requires contributions not only from countries and their governments and administrations, but also from private industry, from NGOs and many other organisations, from local municipalities and from all citizens of the world.

In the association, Local Agenda 21 in Gladsaxe, we have worked with sustainable development focusing on nature and environment for 20 years. And for the last nearly 2½ years, we are using the SDGs to frame and focus our activities. Among these is participation in the yearly marked day of Gladsaxe, where all types of politicians, local organisations, civil servants and others meet to inspire and exchange, and to have a good time. We focussed on SDG # 12 in 2017 and gave examples on how a local citizen can contribute.

In 2018, we prepare a broader approach, where we by addressing relevant targets and indicators have found options for citizens to contribute to all 17 SDGs. We thereby can skip the discussion on which of the 17 to focus on – and which to forget! Thereby, we leave no SDG's behind. The presentation will give examples on how we communicate. And especially on our experiences with an online assessment tool where the citizen can grade their own behaviour on selected issues and see an illustration on how this contributes to the overall achievement of the SDG's. The presentation will include other local and citizen oriented examples on how to contribute to the SDG's in Denmark.

Lokalna agenda 21 v Gladsaxe

Povzetek

Leta 2015 so svetovni voditelji sprejeli cilje trajnostnega razvoja (SGD) kot del Agende za trajnostni razvoj iz leta 2030. Uradno je v veljavi 1. januarja 2016 17 splošnih ciljev, 169 ciljev in trenutno 232 kazalnikov. Ogromen in zelo zahteven program, ki zahteva prispevke ne le od držav in njihovih vlad in uprav, temveč tudi od zasebne industrije, nevladnih organizacij in številnih drugih organizacij, občin in vseh državljancev sveta.

V združenju Local Agenda 21 v Gladsaxe smo 20 let delovali za trajnostni razvoj, ki se osredotoča na naravo in okolje. In v zadnjih skoraj 2½ let uporabljamo SDG-je, da bi svoje dejavnosti usmerili in osredotočili. Med njimi je udeležba na letnem prazničnem dnevu Gladsaxe, kjer se srečujejo vse vrste politikov, lokalnih organizacij, javnih uslužbencev in drugih, da se navdihujejo in izmenjujejo ter se

dobro zabavajo. Osredotočili smo se na SDG # 12 leta 2017 in podali primere o tem, kako lahko lokalni državljani prispeva.

V letu 2018 pripravljamo širši pristop, kjer bomo z obravnavo ustreznih ciljev in kazalnikov našli možnosti za državljane, da prispevajo k vsem 17 SDG. Tako lahko preskočimo razpravo o tem, na kateri od 17 se osredotočimo - in katere naj pozabimo! S tem ne opuščamo nobenega SDG-a. Predstavitev bo prikazala primere, kako komuniciramo. In še posebej o naših izkušnjah z orodjem za spletno ocenjevanje, kjer lahko državljani ocenijo svoje vedenje o izbranih vprašanjih in si oglejte ilustracijo o tem, kako to prispeva k splošnemu doseganju SDG. Predstavitev bo vključevala druge lokalne in državljanske usmerjene primere, kako prispevati k SDG na Danskem.
