

Mag. Aleš Bole

Rojen 1979 v Ljubljani. Zaključil Pedagoško fakulteto v Ljubljani, smer Predšolska vzgoja. Nadgradil znanje na Fakulteti za podiplomske državne in evropske študije. Magistriral iz področja zasebnega šolstva v Sloveniji in EU. Izkušnje je pridobival tako v izobraževalnem sektorju kot gospodarstvu. Našel je povezavo med dvema svetovoma, ki sta v Sloveniji žal preveč oddaljena, morala pa bi delovati z roko v roki. Delo v vrtcu mu ponuja izzive, poleg osnovnega poslanstva – opora optimalnemu razvoju otrok - deluje povezovalno, spodbuja sodelavce na vseh nivojih k skupnim projektom, sodelovanju in širi pozitivno energijo. Izziv mu je tudi sodelovanje pri oblikovanju medosebnih odnosov v družinah otrok, ki so mu zaupani v skrb.

Aleš Bole, M.A.

Born in 1979 in Ljubljana. Finished Faculty of Education in Ljubljana, majoring in Early Childhood Education. Upgraded skills in the Graduate School of Government and European Studies. Master's degree in the field of private education in Slovenia and the EU. He gained experience in both the education sector and the economy. He found a link between two worlds, both in Slovenia unfortunately being too far each from other, as they should work hand in hand. Working in the kindergarten offers to him challenges. In addition to the basic mission - supporting the optimal development of children – he works on integration, encourages employees at all levels to joint projects, cooperation, and he spreads positive energy. As a challenge he also participates in shaping interpersonal relationships in families of children who are entrusted to him in care.
