

**Vesna Kolar Planinšič, MSc,**

B.S. in Landscape Architecture at University of Ljubljana in 1986, specialisation at the Royal Danish Academy of Fine Arts in Copenhagen and B. S. at University of Ljubljana in Urban and Spatial Planning at Faculty of civil construction and geodesy.

Vesna Kolar Planinšič has been working on different environmental related issues for 28 years, from practice to administrative and legislative measures development and from local, national to international level. She started in private practice, then worked as research assistant at University of Ljubljana and at Institute for natural and cultural heritage.

Last 18 years she has been employed by the Ministry for Environment in Slovenia. Her references include Slovenian first presidency of Alpine Convention and Protocols development, development of Life III-Nature programme as the first non EU state and establishment of European ecological network Natura 2000. She was also active member of Slovenian EU presidency team in 2008 and team for OECD entering. She was acting as vice president and the president of Implementation Committee for the Espoo convention and SEA Protocol matters in UNECE, Geneva.

She is Head of Strategic Environmental Assessment (SEA) Department, responsible for transposition of SEA and EIA directive, focal point for the Convention on Transboundary Impact Assessment (Espoo) and Protocol on Strategic Environmental Assessment. She is active member of European Commission expert group EIA/SEA. Her preference is good practice development on environmental integration into sectorial plans and programmes and in transboundary SEA/EIA.
